

Learn to Fly - Going Flying School Holiday Course

So you want to learn to fly?

Smartair's *Going Flying* School Holiday Course gives you 5 hours' flying in 5 lessons spread over 5 days, for only \$1200.

Courses held at Albury and Bathurst.

Please contact a Smartair flying instructor to book your place or find out more.

Or you can visit us at:
11-12 Avalon Street, Albury Airport, or
1 PJ Moodie Drive, Bathurst Airport

(But call us first to make sure the right person is there to meet you.)

What is the *Going Flying School Holiday Course*?

This is a course designed to give students who want to make aviation their career, a head start. It's the smart way for budding aviators to get a taste of flying – because they actually get in the air and learn the basics. Students can then make an informed choice about becoming a career pilot or a recreational flyer.

Who can do the course?

Just about anyone who is capable of controlling an aircraft. Our focus is on school students who can't wait to get started on their aviation career, but maybe you've enjoyed a Trial Instructional Flight (TIF) and want to learn more. You don't need a medical or a licence application so it's a straightforward way to get started.

What does the course involve?

Smartair instructors teach the basics of flying – both practice and theory – over a 5 day period. Students receive 5 hours' flying time and 5 briefings for an all-inclusive fee of \$1200. Classes are limited to 3-5 students and run from 0800-1730 each day from Smartair's base at Albury or Bathurst Airports.

Each morning, after a collective briefing on that day's exercise, students take to the sky, in turn, with the instructor beside them. After flying, it's right back down to earth because students need to study modules from the supplied theory books to cover the syllabus required for the Pre-Solo exam.

All *Going Flying* course graduates will have passed the pre-solo theory exam, which is a pre-requisite for the General Flying Progress Test (GFPT). Students will also have flying experience and theoretical knowledge which can be directly credited towards their pilot licence.

Course outline

Practical component

Effects of controls
Straight & level
Climbing & descending
Turning
Stall recovery

Theory component

Aerodynamics
Air law
Emergency procedures
Radio theory

How do I learn more?

After completing the *Going Flying School Holiday Course*, the logical progression is to enrol for our *Going Solo* course in the next school holidays. This course includes revision, simulator training, more theory and flying circuits.

After *Going Solo*, you are well on the way to completing your GFPT. After that you'll progress to using charts and navigation aids, and work towards your Private Pilot Licence. Then a Commercial Pilot Licence, Night Rating and Multi Engine Instrument Rating are all within reach.

Just ask your instructor for more details about further training.

Holiday Course Dates and Fee

Albury and Bathurst during NSW and VIC school holidays.
\$1200 all inclusive.

Smartair is a Registered Training Organisation (RTO) under the Australian Quality Training Framework (AQTF) NTIS Code 5278
