Seating: 1+8
Cruise speed: 270 knots (500 km/h)
Range: 2770 km (max fuel) - 1780 km (max passengers)

Safe, Comfortable, Reliable, Secure

The Beechcraft Super King Air is a fast, spacious passenger executive aircraft. Configured with leather club seating and a quiet cabin the King Air is ideal for business conferences enroute.

Flying at optimum levels in a temperature-controlled cabin, the flight crew will keep you above the worst of the weather and ensure that you are comfortable for the entire journey.

Day or night, short or long trips, the Beechcraft King Air has the ability to operate when you need, where you need. Think of the time and money you will save if you fly to a convenient nearby airfield instead of a major city hub.

With similar travel times to a commercial airliner without the check-in or luggage hassles, chartering the King Air is the smart solution to your business travel needs.

Work smarter, charter your own aircraft.
